For me ERASMUS is a wonderful project is a great opportunity for us to help victims of cyber harassment and it is also a great opportunity for the victims to get by.

Cyber harassment is a form of harassment conducted through various digital channels. It can take different forms, such as creating fake profiles, spreading unfounded rumors or sending insults messages.

Do not under any circumstances allow yourself to be quiet or quiet, as this makes your case worse and destroys your life and that of your loved ones.
