## **STUDY**

*Courageous, Bold, Visionary and Perfectionist, I am constantly persevering, believing and Drawinmy perspectives, in order to always extricate myself in a more just and progressive Evolution, recognized for my seriousnessand my assiduity, through my teachers*

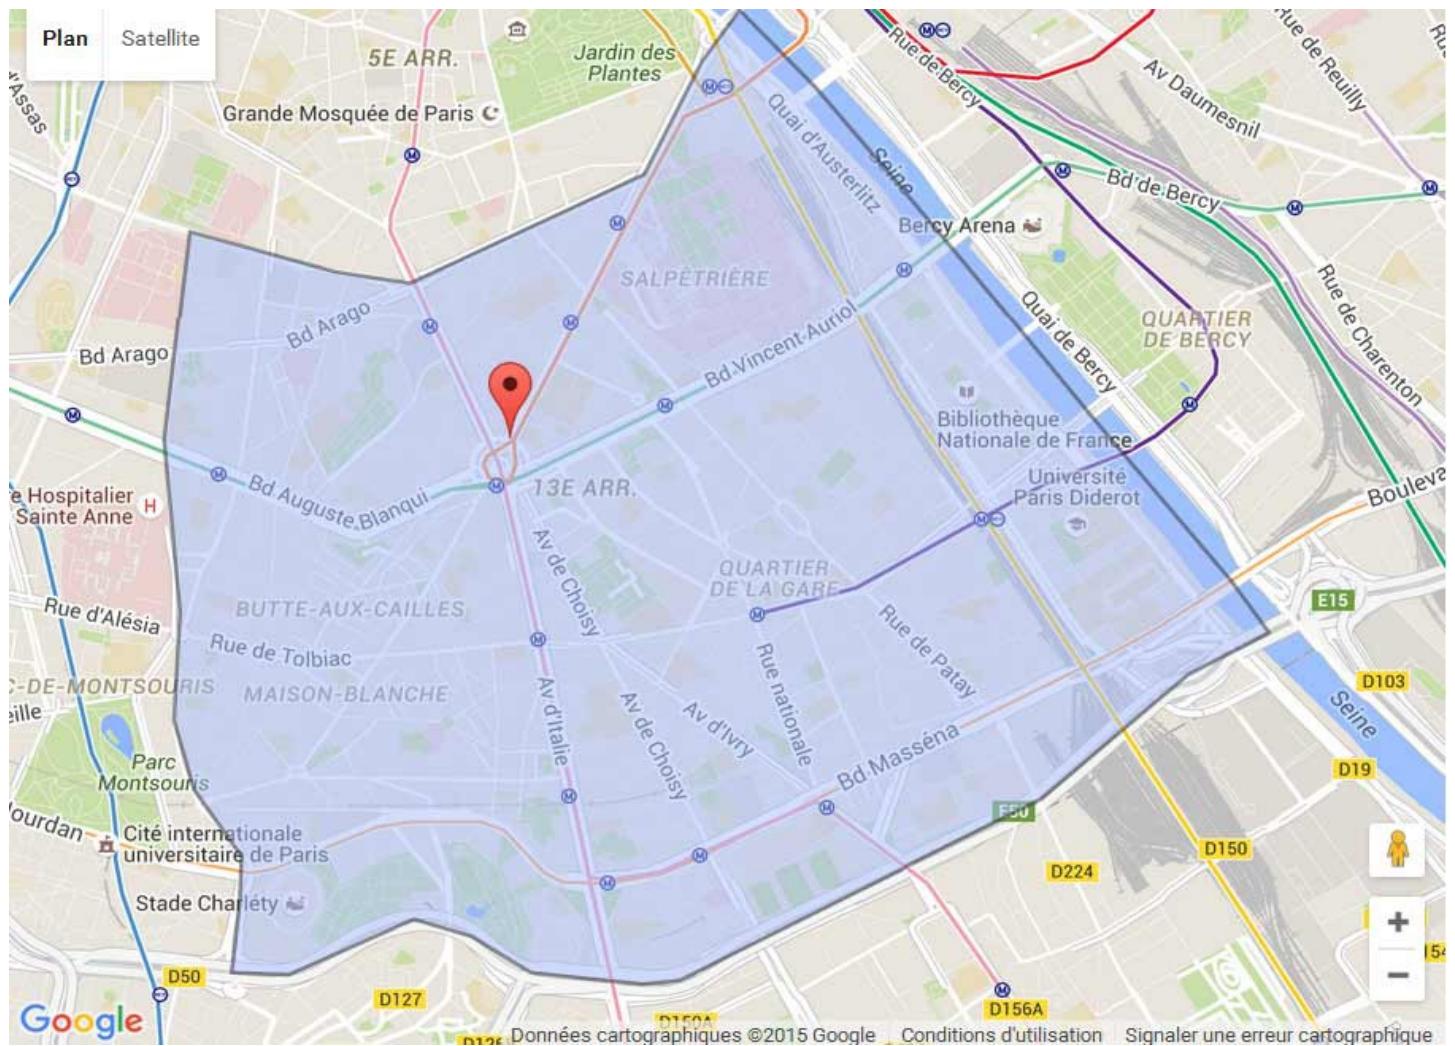

- 1) *Eugenie Cotton High School*
- 2) *Alembert High School*

*Having been a Student in Design and Applied Art at Eugenie Cotton High School Currently in training: Fashion Trade Shoes and Leather Goods at the Alembert High School, my momentum in the world of Fashion and my stylistic studies say. Destined for the Fashion Trade and Design, by the future of a possible development of a Put on Line since my youngest age, my constant progression of conceptual, creative, technological, innovative, manual and technical project never stops actively to emancipate.*

# **My Family**

The eldest of the family,  
I live now with my father  
and his partner, my  
mother-in-law.  
I also have a little sister,  
three less than me

My neighborhood: located in the 13th district of Paris, bounded on the south by the green railways of the small belt, and on the west by the edge of the Montsouris Park. In addition to the Rungis Square, located in its heart, a very cosmopolitan territory, it is seen to be reborn by the birth of a new ecoquarter out of the ground, taking place on the old station - Rungis

Near the tramway, it allows me to reach the neighborhoods of my neighborhoods and his close suburbs, and to go around Paris in a single tramway .

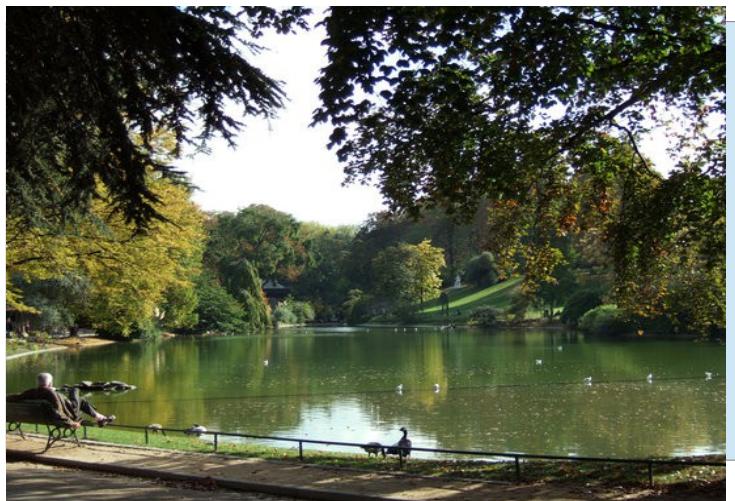

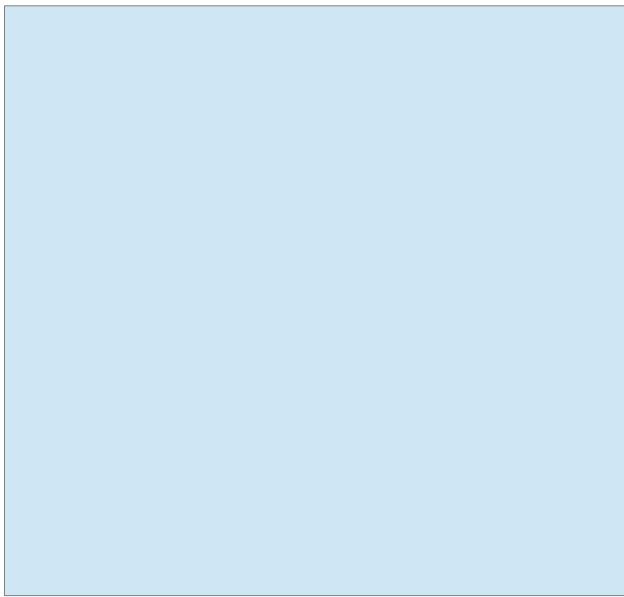

My residence located in a very quiet area filled with greenery opens onto a green courtyard following exclusive access to residents and privacy

# **Greenery and Vestige**

The Little Belt: Vestige of an ancient railroad, nowadays become a Pedestrian path open to residents to stroll and trace the history that has been made so far. This way that bypassed while Paris still runs my neighborhood today: The postern of poplars.

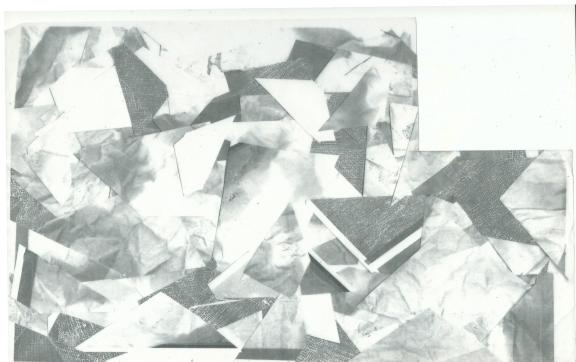

gourmet, I love to travel and discover new things (culture, ritual and tradition), nourishing my inspirations.

In the same way, I have a particular affection for the writing, which broadens with musical term, from where my attachment for the music in its diversity and the culture among its five senses.

In addition, I have a passion closely related to Art and creation, the heart of the Fashion Trade and Design especially for the Shoes, the way in which I rely my life. To keep myself entertained, I always like to draw while observing my environment, in order to shape my line.

More and more concerned about our climate, its ecosystem and our environment, many questions may be asked to be asked without finding an answer to his questions. This can potentially become very worrying for the human species and its years to come. To think that we will be led to be one of the last generations of all existence seems to me to be worrying.

*I wanted to thank you personally for having especially  
the courage to read my personal presentation, a project  
that particularly touched my heart, thank you.*

*Sincerely , AUGUSTE Laurent*
