

SIMON DEFRANCE

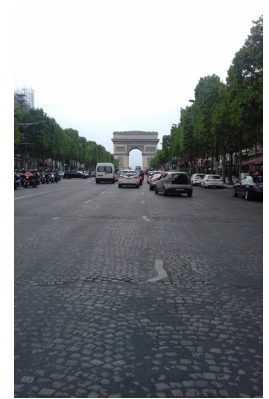

PARIS 19
B-tech MMCM

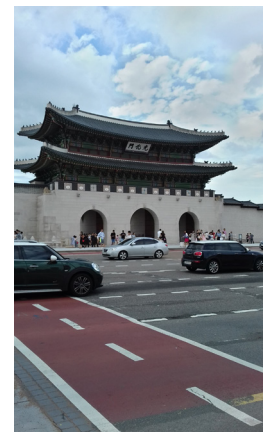

HELLO,

I introduce myself, my name is Simon Defrance. I am 19 years old and I am living in Paris since the beginning of the year.

I have a sister who is studying fashion in Lyon but being as passionate about fashion I decided to leave for the capital. At school I have classes from Monday to Friday, I have general courses such as English, mathematics and management but also technical courses such as leather goods and the fitting of the shoe. I would like to be a stylist that is why I study the shoes and then I will study the clothes...

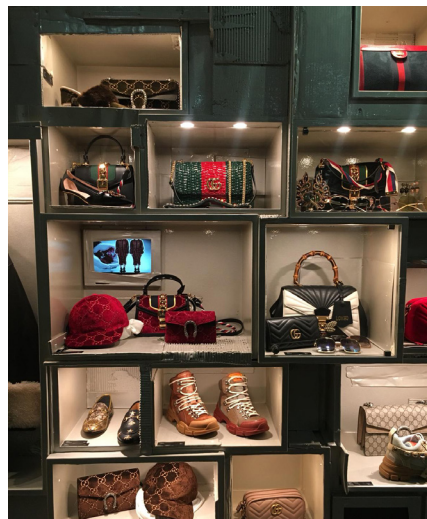

I was born in Colombia which explains why I learned Spanish in high school. So I am in the first year of b-tech manufacturing shoe and leather goods, I love fashion, tacos, churros and risotto. I love travelling abroad to discover other ways of life and meet people, I went to Shanghai in China, Hong Kong, Seoul Korea, London, Bogota in Colombia, Dublin, Milan, Barcelona and much more.

I speak pretty well English, I speak well Chinese and Spanish. I could have made the presentation in Spanish but I will avoid because of faults. I like sports but because of my health problems I do not practice any sport but I always dreamed of playing football, I did for 10 years of tennis.

As every teenager I am all the time on my phone to hang out on Instagram, I listen to a lot of music from all over the world, from English, American, Latin, Asian music. In my opinion the old musics are the best such as Frank Sinatra, Jacques Brel, Nina Simone or Wham!. I sing all the time which doesn't mean I'm a good singer. I play a little piano, I draw a lot of shoes and portraits in black and white, I love to visit luxury shop. I watch a lot of anime, series and matches of soccer.

I'AM LOOKING FORWARD TO MEET YOU
