My name is *Lisa HALLOUCHE*, I'm 17 years old

- I am student in first ST2S at the Lycée d'Alembert in Paris

- I live 30 minutes from high school and I use the metro or the tram as a means of transport

- My sector explores a technological path around the theme of health and social I chose this path to become a nurse

► As part of this exchange program, we plan to discuss the issue of cyber-harassment.

► Cyber-harassment uses the internet as an action vehicle

► It can take different forms:

❑ False profile creation

❑ Misinformation Dissemination of unfounded rumors

❑ Insulting messages

- People who know me say that I am kind and sociable
- I live in Paris, I have two brothers who are older than me (20 and 23 years old), and I have two cats

► My interest in the Erasmus project is focused on the discovery of other countries, other cultures and customs and especially to be able to interact with other young people from other places in the world.

► And precisely the Erasmus program allows this exchange between students and teachers from various institutions around the world
