

Introduction of myself

Hey guys!!

I'm Christina Allen and I am currently in my first year of high school as a student at Aristoteleio College . I was born on 18th April 2003. I also live in Thessaloniki where I was born too.

My family consist of five people, my parents and one brother Harris and my twin sister Angelina. My father whose name is Herbert Allen retired as electrical engineer. My mon whose name is Natasha Rakovali is a retired Gym teacher. My brother Harris just graduation from Thessaloniki University as an electrical engineer.

My favorite thing to do is playing basketball. My sister Angelina and I play for Π.A.O.K. team which finished second in Greece last year. I love playing basketball cause it is a life style for me. We also used to play the piano for five years but I didn't continue cause I didn't have time for it. What's more I my favorite hobby is reading books that will expand my way of thinking, I usually read books that are complicating on the way the writer author the book.

I am looking forward to get in contact with the other members of Erasmus and discuss the anti-bullying project and hope that our team will come up with great results.
