

Hello everyone,

My name is Thomaidou Elisavet, but everyone calls me Eliza. I am from Aristoteleio College and I live in Thessaloniki. I have 3 sisters and 1 brother, Anna, Maria, Eirini, Andreas. We also have a dog, that is called Melira, which comes from all our names.

My favorite class is math, and in the future, I want to study architecture, probably in abroad, because although I love Greece I want to live in another country, as it is a life time experience, and I believe the best time to do that is in college.

In my free time I like to paint, especially faces and more specifically eyes, because I believe that all you need to understand or know a person is to look them in the eyes. My logic about this is that a smile could be lying about someone's feelings, a smell could be lying about something's taste, a word that you hear could trick you, but when you look into someone's eyes you know what they want to say or what they feel.

Another hobby I enjoy is playing the guitar and writing songs. I really like listening to music, basically rock, but the I love to preform the songs in my own way, or to feel satisfied for achieving to play something that is hard.

As you all probably understood by now, I am an artistic person, I don't like sports very much, but I am really exited to participate in this program and do all the projects in my own artistic way, in order to achieve this years goal.
